

Reduced Target Faces

Now you can enjoy shooting a realistic looking target in a shorter distance. Our NEW line of Reduced Faces simulate the look of 20 yards/meters in half the space. We have reduced the World Archery/FITA one and three spot and the NFAA one and five spot to 50%, making the targets look similar at 10 yards/meters to your normal view. The Reduced faces measure 8.5" x 8.5" with the Reduced 4-Color Faces available in 2 stocks, the NFAA Reduced target is available only in the cover stock.
